Dear Dr Lederberg,

One of the activities in WHO's research programme is the awarding of Exchange of Research Workers grants. As you may be aware, such a grant has been offered by WHO to Dr K. Bhaskaran, Scientist at the Central Drug Research Institute, Lucknow, India, in order that he may visit fellow scientists working on bacterial genetics with special reference to the cholera vibrio.

We are certain that Dr Bhaskaran would benefit greatly from a visit to your department. The dates proposed for his visit are 28 April to 5 May 1965. We should appreciate hearing from you as soon as possible that these dates will be convenient for you to meet Dr Bhaskaran, so that we may make all the necessary arrangements for his travel.

Yours sincerely,

Yoshikazu Iwatsuki

(for) B. Cvjetanovic, M.D.
Chief Medical Officer
Bacterial Diseases
Division of Communicable Diseases

Dr T. Lederberg
